NB. Please be aware that the above advice may change later in the year depending on the transposition of the current proposed EU Directive into our legislation.

NOTES:

- The original FAC is required for the Firearms Dealer to annotate the changes. The dealer must add or change the ammunition allocation as appropriate; the FAC holder must at the time of the transaction dispose of any unused ammunition unless he continues to hold a firearm of that calibre.
- The Form 30/50 **REPLACES** the previous dealer transaction Form 30/35. Each separate transaction requires a £15 fee. 1 off does **NOT** require a fee.
- Moderators may be suitable for rifles in more than one band, please specify if one moderator is to be conditioned for use with more than one rifle. E.g. Moderators could be .22 to .223 inclusive or .243 to .308 inclusive. Also, if the moderator has a make/serial number they **MUST** be provided to FEB.
- A rifle may be exchanged for a rifle, a barrel for a barrel, a moderator for a moderator. Moderators, barrels and rifles **CANNOT** be exchanged for each other.
- No rifle, barrel or moderator that needs FEB approval can be released until the FAC holder produces their updated FAC containing said item.
- A separate Form 30/50 and fee is required for **EACH** FAC holder involved in a change where there is a 'borrowed' firearm.
